# Grant Match and Maintenance of Effort

---

Many federal grants for particular functions require the recipient to provide some level of support for the function as they spend the grant. These requirements can generally be classified as “match” or “maintenance of effort” requirements.

These terms are defined as follows:

**Grant Match** - A contribution required to expand the services of the grant to increase the impact of the original fund allocation. The match may be provided through cash match or through in-kind services, which are contributions of staff, facility space, etc., which are utilized to support the program without a cost to the original grant. The match is determined as a certain percentage of the total grant. This match can be obtained from Local or Private funds, or on occasion from other grants.

**Maintenance of Effort (MOE)** - A grant requirement to allocate a certain level of Local funds, which is a demonstrated maintenance of effort in the support of activities which are similar to or indirectly support the original grant's scope of services. This is a level of funds that may be equal to or even exceed the original grant funding level. This can be achieved from Local, non-Federal funds.

To ensure that the District captures this information and adheres to these requirements throughout the year, the Office of Budget of Planning has requested and received from all District agencies detailed match and MOE information on all Federal grants included in the FY 2005 budget. The

following tables display Federal grants and any match or MOE required by the grantee.

The first table includes the District's \$738 million of non-Medicaid Federal grants. It separately lists each grant, by grant number and name, that has a match or MOE requirement. For each agency, it sums all grants with no such requirement on a single row labeled “Grants with no Match or MOE.” It then displays the totals for each agency, appropriation title, and the District as a whole.

The second table displays the District's Medicaid funds and match amounts. Two agencies receive Medicaid funds directly in their federal budgets: the Departments of Health (\$980 million) and Human Services (\$12 million). Three public provider agencies receive Medicaid funds in their Intra-District budgets, through arrangements with the Department of Health: D.C. Public Schools, the Child and Family Services Agency, and the Department of Mental Health.

Table J-1

**Federal Grant Match and Maintenance of Effort, FY 2005 Budget, Excluding Medicaid**
